

Swell Models - Standard Specifications

Swell	Swell XL	Swell XL Ultimate
The Swell is our lightest and most compact terdrop camper, that can be towed by practically any car. She features an inovative fiberglass mould kitchen and rear end, with a fiberglass tailgate hatch with built in rain gutters. The Swell has a double bed, and can also be fitted with a 270 degree awning that to cover the rear kitchen.	The Swell XL (EXtra Long) takes the Swell and lengthens the body to achieve a Queen length bed inside. It features all the specifications of the swell, in a longer body. With the longer body, we can also fit an extra window on both sides!	Takes the Swell XL to the next level, Re-defining what a light trailer can be, by adding a slide out kitchen with 2 Burner gas cooktop (gas bottle storage on drawbar), a stainless sink, and flip over benchtop. (Don't forget the cutlery draw). The fridge, a 62L (or 95L) Dual Zone EvaKool slides out from a box on the drawbar, with storage opposite. Light weight and feature packed!
